

**HONORS BY CONTRACT  
THE UNIVERSITY HONORS PROGRAM**

What is an Honors By Contract?

Students may earn up to 6 hours of honors credit an appropriate regularly scheduled **JUNIOR** and **SENIOR** level courses through satisfactory completion of the terms of an Honors By Contract. This contract requires a prospectus, prepared by the student consultation with his/her professor and with the Honors Program Director. This prospectus outlines the difference between the requirements to be met by the honors student and those which apply to regular students in the class. ***These requirements MUST reflect differences based on more than an additional workload.*** They must also show that the additional expectations will provide and experience that is both challenging and enriching. The prospectus must be approved by the Professor, his/her Department Head, and the Honors Program Director.

The Professor must agree to meet with the student as needed and to file a report on the student's performance at the end of the semester. If either the Professor or the Honors Program Director considers the student's performance unsatisfactory they may withhold honors credit by advising the student in writing of their decision to do so.

Only students in good academic standing (3.3 GPA) are eligible to earn Honors By Contract credit. No grade below a "B" will be accepted for honors credit. Students may be released from the Honors By Contract obligation at the Professor's discretion, in which case the student must continue to complete all requirements and follow University regulations pertaining to the course, unless the course has been dropped.
